

The Contemporary

New for 2010 from Wessex Park and Leisure Homes are three very distinct lodges. The Milbourne Contemporary, one of the most popular lodges of 2008/09, has undergone a complete makeover with many new ideas and features and a fresh, new colour scheme. The Milbourne Classic has also had a facelift to bring it right up to date; whilst the new Summerhouse has been designed to provide the ideal base for indulgent, memorable holidays at an exceptional price.

The new Contemporary takes even more advantage of natural light with large sliding doors, and additional windows above. The glazing is complemented with a wide overhang incorporating feature down lighting. The striking, newly designed interior combines high style with luxury accommodation and fully fitted appliances as standard.

The vaulted ceiling which works to such good affect

in the living area has now been carried through the rest of the home. The bright, airy kitchen spans the full width of the home allowing for more space in the living area. Upon entering the master bedroom you have a feeling of opulence. From the three windows that frame the bed and the feature wallpaper; to the full wall of sliding glass doors leading into the en-suite hiding two wardrobes, you cannot fail to be impressed.
