- Solar enhanced heating
- Under floor heating
- Larch or thermo wood cladding

The Sanctuary

Experience your environment in a simple, intuitive and effortless way

This is the latest addition to a comprehensive range of quality lodges from Wessex. The contemporary organic lodge utilises a combination of natural Cedar external cladding, coloured aluminium faced wood full height windows, oak flooring and grooved internal wallboards to provide a modern and clean lined lodge. Its architectural elements seamlessly blend and complement the texture of the natural timber.

The Sanctuary's open plan living and dining areas with full height windows emphasise the feeling of space. The luxury fully fitted kitchen has been stylishly finished with hardwood worktops, complemented by stone tile splash backs and under and over storage. Integrated cooker, fridge freezer and dishwasher along with a washer dryer are also provided as standard. The kitchen has been tastefully decorated and finished in keeping with the rest of this impressive lodge.

The large master bedroom has room for a king-size bed plus a generous built-in wardrobe, an en suite with tumbled limestone tiling and impressive shower. The large second double bedroom also has room for a king-sized bed and benefits from a full height window providing plenty of natural light and a built-in wardrobe for storage. Continuing the theme the large family sized bathroom has natural oak freestanding washstand fitted with a square ceramic basin, matching bath with typhoon showerhead and inset toilet.
